When you need equipment you can depend on, we'll be there.

The new LanTEK IV-S Cable Certifier is now available in a range of copper and fibre bundles.

BUNDLE 1
LanTEK IV-S 500MHz Cable Certifier and 1 Year Sapphire Care Plan

SAVE £655

Bundle Code: LT4-500S

BUNDLE 2
LanTEK IV-S 3000MHz Cable Certifier and 1 Year Sapphire Care Plan

SAVE £725

Bundle Code: LT4-3000S

BUNDLE 3
LanTEK IV-S 500MHz Cable Certifier, FiberTEK IV Tier 1 Adapters, 1 Year Sapphire Care Plan and Accessories

SAVE £3,790

Bundle Code: LT4-500FS

BUNDLE 4
LanTEK IV-S 3000MHz Cable Certifier, FiberTEK IV Tier 1 Adapters, 1 Year Sapphire Care Plan and Accessories

SAVE £4,180

Bundle Code: LT4-3000FS

BUNDLE 5
LanTEK IV-S 500MHz Cable Certifier, FiberTEK IV Tier 1 Adapters, FiberMASTER Quad OTDR, 1 Year Sapphire Care Plan and Accessories

SAVE £5,160

Bundle Code: LT4-500FOS

BUNDLE 6
LanTEK IV-S 3000MHz Cable Certifier, FiberTEK IV Tier 1 Adapters, FiberMASTER Quad OTDR, 1 Year Sapphire Care Plan and Accessories

SAVE £5,510

Bundle Code: LT4-3000FOS

TREND NETWORKS

Depend On Us

www.trend-networks.com

When you need equipment you can depend on, we'll be there.

Save up to £5,510 with our new LanTEK IV-S Cable Certifier Bundles. Everything you need to get the job done.

The 'S' stands for speed. LanTEK IV-S is the fastest Cloud enabled certifier in the world, bringing a new standard to the industry.

LanTEK IV-S - Copper and Fibre Certifier.

7 Second Cat 6A Test Time – Every Test. Every Measurement. Every Time.

VisiLINQ™ increases productivity – VisiLINQ™ permanent link adapters present a new and unique way to test, everything you need to operate the certifier and verify the results in the palm of your hand.

Future proof – Certify links to Cat8.1 and Cat8.2 including TCL and resistance unbalance measurements. The LanTEK IV-S 3000 will test up to 3000MHz providing room for future ratified ISO/TIA test standards.

TeamViewer Live support – Co-workers, Cable Manufacturers and TREND Networks Technical Support can connect to a LanTEK IV-S on the jobsite, minimising troubleshooting time, increasing collaboration and reducing call-backs.

Complete Protection for your LanTEK IV-S – The Sapphire Care Plan reduces cost of ownership, minimises downtime and protects against unforeseen repair bills, helping increase your cash flow and providing the support you need.

FiberTEK IV - Tier 1 Tester.

Used with LanTEK IV-S – fast and simple certification of high bandwidth single-mode and multimode fibre optic cabling including support for encircled flux testing (optional).

Pinpoint fibre cabling faults – the FiberTEK IV adapter includes a built-in visible light source to help you visually pinpoint faults and locate fibre ports.

Optical loss (dB) measurements - meeting Tier 1 certification requirements.

The FS bundles features both multi-mode (850/1300nm) and single mode (1310/1550nm) OLTS modules.

TREND AnyWARE Cloud - Test Management Software.

(Desktop version also available)

Eliminate costly setup errors – Project Managers pre-configure all project information in the TREND AnyWARE Cloud and Field Technicians simply download the project to the LanTEK IV-S eliminating any mistakes from manual data entry.

FiberMASTER Quad OTDR - fibre optic cable tester to test, troubleshoot and certify.

A small and simple touchscreen OTDR tester with free CertSoft Software included. FiberMASTER is made in the USA and verified by GHMT AG in Germany.

One of the world's smallest OTDRs - easy to carry and complete with a hard carry case for protection and longevity.

Industry leading Dynamic Range - Test longer fibres, PON systems and maintain accuracy on high-loss fibres.

Pass/Fail report to TIA/ISO/IEC/IEEE - The software simplifies certification of cabling to meet TIA/ISO/IEC/IEEE requirements with simple pass/fail results. Additionally custom test parameters are easily set to accommodate any application.

TREND NETWORKS

Depend On Us

www.trend-networks.com

OUR PROMISE

YOU CAN **DEPEND ON US**

At TREND Networks we know that you need to be confident that our data cable and network testing equipment provides fast, accurate results in all circumstances - even the most difficult ones.

UNLIKE WITH OTHER SUPPLIERS, WITH TREND NETWORKS YOU CAN ALWAYS:

DEPEND ON OUR EQUIPMENT

Our Lifetime Support Promise means we will continue to calibrate and repair the cable and network testing equipment you buy from us for as long as you use it. If we are ever unable to source replacement parts for older products, we'll offer up to 30% discount off the latest generation.

DEPEND ON OUR DATA

The TREND AnyWARE Cloud ecosystem is the only system providing testing for cable certification, active network troubleshooting and bandwidth testing. As you grow, or as technology changes the TREND AnyWARE Cloud keeps you covered.

DEPEND ON OUR SUPPORT

Our Rapid Resolution service means that, if we cannot answer your call immediately we strive to return ALL technical support calls within 2 business hours. Our unique 'Real Time Troubleshooting' technology enables instant remote access to your tester anywhere in the world to resolve problems fast maximising workforce productivity.
